Python Developer Builds a Raspberry Pi That Alerts Drone Pilots (suasnews.com) 26. "A Raspberry Pi, a USB SDR dongle, an LCD a buzzer and a little bit of coding in Python and C has created a very useful alarm for drone and RC model aircraft operators ," explains long-time Slashdot reader NewtonsLaw . The device allows users to set an "alarm" perimeter around their operating area and automatically alert them whenever a manned aircraft with ADSB fitted intrudes into that area.
